Fawaz Abdullah Hadi AL Harbi Trading & Contracting Company شركة فواز عبدالله هادي الحربي للتجارة والمقاولات

Executive Summary

1.1 Introduction

Fawaz Abdullah Hadi AL Harbi Trading & Contracting Company (FAAHCO) is 100% Saudi owned company registered in Hafr Al Batin Saudi Arabia with C.R. No. 2511019291 and we open a branch office in Khobar which holds CR No. 2051061799.

1.2 History

During the year 1995, Mr Fawaz Abdullah Al Harbi (Chairman & Founder) started a manpower supply chain (FAAHE) in khobar with Mr. Nazmul Hasan Talukder (Managing Director), later he expanded that business with more branches opened in Jubail, Dammam, Jeddah & Jazan. The business was mainly evolving around providing manpower to some well known companies and projects in all over Saudi Arabia.

In the beginning of 2013, FAAHE has taken a major step forward and formed a Trading & Contracting company FAAHCO, which will mainly contemplate in building construction, building maintenance and renovation works, and other civil, electrical and mechanical works as well. The expansion leads the company towards a more successful work sphere on a variety of contracts ranging from civil construction to government authorized projects.

MANPOWER SUPPLY

Our Manpower Services team provides various manpower outsourcing services. We are leading manpower suppliers in KSA in the following categories:

General helpers and semi skilled workers
 Skilled manpower - welder, Fabricator, erector, fitter, engineers, millwright, carpenters, painters, electricians, mechanics, masons, fabricators, plumbers and steel fixers

Drivers - light & heavy-duty drivers, mini bus drivers, heavy bus drivers, motorcyclists, forklift operators, heavy equipment operators, Warehouse operators, Waiters, office boys and assistants.

OUR MAJOR CLIENTS

ZAMIL AC

Faahco has been providing various kinds of manpower like Assemblers, Brazers, Machinists, Operators, Millwrights and Semi-skilled Helpers to Zamil AC since 1999 to till date at 1st and 2nd Industrial city Dammam.

ZAMIL STEEL

Faahco has been providing various kinds of manpower like Fabricators, Fitters, welders, Scaffolders, Erectors, Operators, Engineers(Piping, Electrical & Safety), Grinder men and Helpers to complete fabrication and erection and tube to tube sheet welding at 1st and 2nd Industrial city Dammam.

ZIMIPCO (ARAMCO PROJECT)

Faahco has been providing Since 2009 to till date manpower like Multi-welders, Structural-Welders, Pipe fitters, Pipe fabricators, Piping supervisors, Piping foremen, Piping Engineers, Piping QC and civil workers etc.

YANPET (SABIC)

Since Oct 2013 to Jan 2014 Faahco has provided Nickel chrome welders, Multi welders, Fabricators etc., at Yanbu project.

OUR MAJOR CLIENTS

YANSAB (SABIC)

Since Nov 2013 to Jan 2014 Faahco has provided Multi-welders, Structural-Welder, Pipe fitters ,Pipe fabricators, , Piping supervisor , Piping foreman, Piping Engineer and QC, Insulator and civil workers etc.

TEKFEN

Faahco has been providing various kinds of manpower like Multi-welders, Structural-Welder, Pipe fabricators, Pipe fitters, Piping supervisor , Piping foreman, Piping Engineer and QC, Scaffolder, Scaffolding Inspector, Insulator and civil workers related to project work since March-2015 till date at SADARA Project Jubail .

HARSCO

Faahco has been providing various kinds of manpower like Welders, Fabricators, Segregators, Operators and Helpers since 2012 to till date at Alrajhi Street Jeddah, Solb steel Jazan and Hadid Jubail.

AL-KIFAH

Since 2013 to till date Faahco has been providing various kinds of manpower like Mould fitters, Mould fabricators, Welders, Steel fixers, Carpenters, Masons, Plumbers, Painters, Erectors etc., at 2nd Industrial city Dammam and Royal commission Jubail project.

GIWI ARABIA CO.LTD.

Faahco has provide various kinds of manpower to various projects in Saudi Arabia as mentioned below:

HANOWAHA PROJECT JUBAIL : Since Feb 2008 to Oct 2009 Faahco has provided various kinds of manpower like Faahco has been providing various kinds of manpower like Multi-welders, Structural-Welder, Pipe fitters ,Pipe fabricators, , Piping supervisor , Piping foreman, Piping Engineer and QC, Insulator and civil workers etc.

GAS PLANT KHURSANIA : Since Dec 2009 to Sep 2010 Faahco has provided various kinds of manpower like Faahco has been providing various kinds of manpower like Multi-welders, Structural-Welder, Pipe fitters ,Pipe fabricators, , Piping supervisor , Piping foreman, Piping Engineer and Insulators etc.

MAADEN PROJECT : Since 2011 to 2012 Faahco has provided various kinds of manpower like Faahco has been providing various kinds of manpower like Multi-welders, Structural-Welder, Pipe fitters ,Pipe fabricators, , Piping supervisor , Piping foreman, Piping Engineer and Insulators etc.

JAZAN REFINARY AND TERMINAL PROJECT : Since March 2015 to till date Faahco has been providing various kinds of manpower like Multi-welders, Structural-Welder, Pipe fitters ,Pipe fabricators, , Piping supervisor , Piping foreman, Piping Engineer and Insulators etc.

OLAYAN DESCON

Since 2005 to till date Faahco has been providing Multi-welders, Structural-Welder, Pipe fitters ,Pipe fabricators, Vessel fabricators, Grinding men , Riggers, Admin staff, QC, Piping supervisor , Piping foreman etc., at Jubail workshop and various projects.

NASSER AL HAJRI

Since 2009 to 2011 Faahco has provided Pipe fitters, Multi welders, Helpers, Fabricators at SAUDI KAYAN Project, Since Jan 2013 to Dec 2013 Faahco has provided Steel fixer, Carpenters, Welders, Fabricators and fitters at Jazan thermal project. Since April 2016 to till date Faahco has been providing Multi Welders and Fabricators at Jazan Refinery and Terminal Project.

AL-KIFAH

Since 2013 to till date Faahco has been providing various kinds of manpower like Mould fitters, Mould fabricators, Welders, Steel fixers, Carpenters, Masons, Plumbers, Painters, Erectors etc., at 2nd Industrial city Dammam and Royal commission Jubail project.

OUR MAJOR CLIENTS

AL RUSHAID

Since March 2012 to Dec 2013 Faahco has provided like Multi-welders, Structural-Welder, Pipe fitters ,Pipe fabricators, , Piping supervisor , Piping foreman, Piping Engineer and QC, Insulator and civil workers etc., at Jubail Sepcom project.

DANEM

Since November 2015 to till date Faahco has been providing Multi-welders, Structural-Welder, Pipe fitters ,Pipe fabricators, Riggers and civil workers etc., at 2nd Industrial city Dammam and Turaif.

MIS ARABIA

Since January 2016 to till date Faahco has been providing Multi-welders, Pipe fitters , Fabricators etc., at Jubail workshop.

PETROL STEEL (SATROP PROJECT)

Faahco has provided Fitters, Fabricators, Welders, Heavy drivers, Civil workers for long term to complete the project at Jubail.

FAAHCO HAS PROVIDED VARIOUS KINDS OF MANPOWER TO BELOW MENTIONED COMPANIES:

ARCON
GULF ELITE
CLEAVE LAND
NATCO
KCC
INDIPCO
SHADE CORP.
AZMEEL
SAAD
AES ARABIA
ETE
NASSAR
NESMA
HEMON D'HONT
STX – JAZAN
MIDONG
AL KHODARI
GULF HEAVY INDUSTRIES

Fabrication

Faahco Sub Contracting Services

FAAHCO offers a flexible approach to fabrication solutions, with a range of fabrication options to fit Clients' specific needs.

FAAHCO's comprehensive knowledge of EPC and project management (PM) allows Faahco to optimize Clients' overall fabrication and construction configuration for cost and schedule advantages.

Erection

FAAHCO provides a complete steel erection and site management service.

The company operates its own fleet of vehicles including mobile cranes.

We employ fully qualified and experienced erection supervisors, as well as experienced steelwork erectors.

Turn Around Services

FAAHCO has a dedicated team to undertake all activities related to management, planning, quality control, safety, material procurement and execution of Turn around & Inspection; shutdown for oil, gas and petrochemical industries in the Arabian Gulf region on lump sum and unit rate basis. Our vast experience based on our resources will provide high quality services not only routine maintenance, but time-critical repair needs of Refineries/ Petrochemical plants process equipment including Storage Tank.

www.faaahco.com

Inspection

Whether you are developing products, projects, or processes, you need trusted independent inspection to ensure that both your legal obligations and the high standards you expect are met at every stage. Our comprehensive range of world-leading inspection services helps you to reduce risk, control quality and quantity, and meet all relevant regulatory requirements across different regions and markets.

Heavy Lift

FAAHCO has the capability to undertake major mechanical installation works including heavy lift of columns, vessels, furnaces, exchangers, stacks etc. & site erection of structural steel, process piping, and conveying systems.

Our professional construction/heavy lift team handles rigging procedures, safety and quality plans and performing all associated erection, alignment and final inspection works.

Fawaz Abdullah Hadi AL Hadi Trading & Contracting Company
شركة فواز عبدالله هادي الحادي للتجارة والمقاولات

Process Piping

FAAHCO has dedicated skilled team to handle piping projects not only for pre-fabrication, but including site erection for all sizes and materials.

All our welders and procedures are qualified under International standards for Gaseous Metallic Arc Welding, Gaseous Tungsten Arc Welding, Shield Metallic Arc Welding & Flux Core Arc Welding etc.

Scaffolding

Faahco is an expert in Scaffolding services designed to meet the needs of house builders, local authority, commercial business or property owners.

We are equipped with highly trained and self-motivated operatives to assure quality of service and maintain competitive prices.

www.faaahco.com

Heat Exchanger Refurbishment

FAAHCO has strong skilled man-power expertise to provide high quality services to meet the various time-bound critical repair needs related to retubing, tube cleaning by hydro-jetting, replacement of shells/channels/tube sheets of the heat exchangers during routine maintenance or shutdowns of various units in refineries & petrochemical plants.

Furnace & Heater

We can install, repair or service any of the following:

- Heat Pumps
- Forced Air Furnaces
- Focused material and equipment procurement planning to support off-site fabrication
- Wall & Floor Furnaces / Heaters
- Gravity Furnaces
- Thermostats

Fawaz Abdullah Hadi Al-Harbi Trading & Contracting Company
شركة فواز عبدالله هادي الحربي للتجارة والمقاولات

Storage Tanks

FAAHCO is capable to undertake from a small site fabricated tank to complete new tank farm consisting fixed cone to floating, and double deck roof types of welded storage tanks for oil and utilities industries; All the tanks are designed in strict accordance with customer specifications and international standards, such as API-650.

We have experience with both carbon and stainless steel materials. Components are fabricated in controlled shop setting, shipped to the site, and erected either conventional or jacking systems under the experienced supervision.

Organization Chart

Business Philosophy

3.1 Mission and Vision

Vision:

Is to deliver our clients with a continually improving level of service, and provide high quality innovative business solutions, meeting all of requirements, thus providing a sound basis for repeat business and long term profitable partnerships.

Mission:

Delight our customer by providing 100% customer satisfaction. To ensure continuous company development employing new skills to develop new market opportunities.

3.2 Quality:

FAAHCO, operates a modified Quality Management System tailored to the specific requirements of each and every project undertaken. The system is regularly monitored and upgraded, to ensure our operations can deliver as a minimum, the agreed contract quality requirements. Each contract has a pre-contract quality plan, which is monitored and updated as the project progresses. A series of checks and inspections are used to ensure the quality plan is maintained to the highest standard, which guarantees that each and every contract is delivered to the satisfaction of the client and the design team.

We actively pursue the target of producing defect free handovers at practical completion, which minimizes the difficult interface between client and contractor at commissioning handover and occupation of the building or the concern project. Feedback from our clients at contract completion provides us with the opportunity for continued improvement in this important aspect of our customer focused business.

3.2 Quality:

We believe safety is of paramount importance within the construction industry.

FAAHCO enforces a Safety Program to keep a tight watch on the individual safety and security on which they can perform their duties with utmost safety, comfort and peace of mind.

3.4 Environmental Responsibility

We are committed to being an environmentally responsible and sustainable business. The strength of our commitment is demonstrated by our use of only the most environmentally friendly materials and construction techniques. This ensures we achieve a minimal impact on the environment in which we are operational, in either the long or short term. We pro-actively advise our customers on how to deal safely with asbestos or dispose of contaminated waste. We also recommend and encourage our clients to use eco-friendly and recyclable things.

3.5 Teamwork

Team work is a crucial element in FAAHCO projects. Working together and pooling knowledge and experience ensures that every success is a shared victory.

“CUSTOMER SATISFACTION ALL THE TIME”

5.1 DEVELOPMENT:

Conduct basic safety training for our employees to provide any overall awareness and about the job hazards in industry. We provide briefing on topics (such as confined space entry, lockout /tag out and other safety procedures.

5.2 SAFETY PLANNING:

We encourage our employees in planning safety, into work activities to make sure that equipment, material and personal do the job safety from the beginning.

5.3 TRACKING AND RECORDING:

To review, monitor and follow up for unsafe practices, violations and conditions identified during site inspections and in the site inspection reports.

We provide all required PPE (personal protective equipment) for our employees.

We provide all required first aid kits.

We provide all required safety equipment's.

FAAHCO that all accident can be avoided by the will of almighty and that working safety protects our most important assets - our employees.

5.4 SAFETY POLICY:

Safety is a safety essential part of. The provision of safe working conditions is of the utmost importance to FAAHCO. No activity on the project will ever be of such importance than safety.

This will be achieved by:

Setting up safety organization and defining the safety responsibilities for each level of employee.
Providing the necessary ongoing safety instructions and training for both new recruits and employees.
Supplying the necessary means for a safe working environment and for adequate personal protection.
Supervising continuously all working activities.
Ensuring accurate reporting and investigation of any accidents and for injuries.
Encouraging, whenever possible, discussion on safety matters.
Ensuring the necessary first aid and medical assistance.
Providing financial allowances to implement this policy.
Ensuring that Saudi Arabian Government qualifies all heavy equipment operators and drivers.
Prepare a suitable Method Statement for the execution of the most critical works.

FAAHCO will ensure that it will develop and maintain a Safety Management System that provides a safe working environment and prevent the occurrence of accidents which may result in:
Injury to or ill health of any person employed or not.
Damage or destruction to Glittering Horizon and Company installations and property.
Shut down of any operational activities.
Every manager and foreman will be responsible for the health and safety of its employees and for ensuring that the working conditions do not pose a risk to the health of other persons.

“TO THINK SAFETY – PLAN SAFETY – IMPLEMENT SAFETY!”

To that end it is of fundamental importance that all project personal realize that their personal safety and well-being depends on giving conscientious day to day attention to the potential hazards in every, task that perform. This Safety Plan is not intended to cover every eventuality, but instead is prepared to provide a description of the safety program elements plans to accomplish at the jobsite.

Commitment for this to control the circumstances that can lead to accidents. Therefore, our safety goal shall be “ZERO ACCIDENT” This recognized as an achievable goal since we treat every accident as preventable and thus avoidable.

WORK ATTIRE PROTECTIVE EQUIPMENT POLICY:

It is FAAHCO policy to supply all employees with necessary equipment and clothing, suitable for the type of work they are called to perform, weather and environmental conditions.

Such equipment includes hard hats eye protection sufficient to protect against any specific danger to eyesight, safety steel-toe boots or shoes, respiratory equipment any if necessary protective suits and hearing protection. The clothing must be in good state of repair and it shall not consist of any loose or ragged material that can become entangled in moving machinery, wire rope, chains or other tools.

The basic ATTIRE on the job site will be as follows:

MANDATORY AT ALL TIMES:

- » Coveralls
- » Safety helmets (plastic-not metal)
- » Safety tools
- » Hearing protection
- » Safety glasses
- » Safety harness
- » Safety belt with line
- » Breathing masks
- » Welder's masks with hose
- » Chipping goggles
- » Burning goggles
- » Grinding transparent plastic face shield
- » Protective gloves
- » welder's gloves
- » General work gloves
- » High voltage gloves
- » Rubber boots provided with steel toe-caps
- » Plastic aprons
- » Fire extinguishers for site offices
- » Safety Sign placards
- » Under no circumstances workers will be allowed to work without shirts or in short parts.
- » Sleeveless shirts and tank tops are not permitted.

Objectives For Total Quality:

- » Provide quality product and services by striving to exceed the needs and expectations of our customers.
- » Define and implement our quality system based upon employee involvement and commitment to excellence.
- » Give all employees the training and support needed to provide quality products and services to all customers.
- » Establish and maintain a working environment that supports the production and delivery of high quality products and services.
- » Develop and maintain a team approach that emphasizes enhancing competitiveness of the company through increase quality and productivity.
- » Provide an atmosphere that encourages every employee to achieve his full potential and pride in workmanship.

Objectives For Total Quality:

- » Recruiting only qualified (by education, training and experience) manpower to every project agreed upon with our customers.
- » Provide all employees, company quality policy and quality principals.
- » Ensure that all personnel performing activities effecting quality are qualified.

“HARD WORK, EXCELLENCE AND A DEFINITE WAY TO FUTURE”
